## GOLD MEMBERSHIP

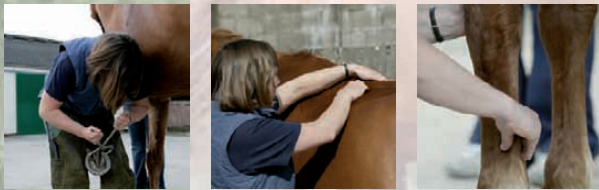

**Annual Benefits** Conditions Apply  
**£28.50 a month gives your horse.....**

**Two visits from your George Veterinary Group Equine Vet**

### Vaccinations

Tetanus

Influenza – bi annually in accordance with FEI recommendations

### Dental consultation and rasping

This includes sedatives as required and a detailed record chart.

### Detailed veterinary health check

Including an examination of all of the body systems. This will include an examination of your horse's feet, foot balance and photographs to annually monitor the condition of the feet.

### Comprehensive written health report with photographs

After the veterinary health check, a clear and concise report will be sent to you, to add to your horse's folder. Additionally, there will be annual worming and dental charts and an assessment of your horse's body condition score with photographs.

### Blood sample to monitor health

This is important to establish baseline blood levels in addition to the diagnosis of ill health. Baseline levels are individual to each horse.

### Two faecal worm egg counts

Important to assess the effectiveness of your horse's worming regime.

### Weigh tape and forage analysis

This enables monthly estimates of your horse's weight to be recorded. An annual forage analysis by Dodson and Horrell will be carried out to determine the quality of the hay/haylage your horse is being fed.

### Many additional discounts
